935 MAGNUM™

**MEET THE BEST-SELLING NEW PRODUCT
INTRODUCTION IN MOSSBERG'S 85-YEAR HISTORY.**

A durable workhorse that's built for hard hunting and fast shooting, the 935 Magnum™ is simply the most reliable, value-priced 3-1/2" autoloading shotgun ever made. Its combination of high performance and great price made this gun the best-selling new product introduction in Mossberg's 85-year history.

"We're absolutely thrilled with the way hunters have responded to the 935 Magnum," says Iver Mossberg, Chief Executive Officer of O.F. Mossberg & Sons, Inc. "It's a great example of our commitment to produce safe, reliable, quality guns at highly affordable prices. It's a testament to the fact that 'American-made' quality still means something to our customers."

Specifically designed with hard-core, no-nonsense waterfowl and turkey hunters in mind, the 935 consistently delivers hard-hitting 3" and 3-1/2" payloads hunt after hunt, season after season.

The sleek, natural feel of the stock and forearm is seamlessly integrated into the receiver and barrel, giving the gun an impressive fit and finish that belies its price tag. Also, its smooth, elegant contoured design, with Mossberg's Uni-Line™ receiver, provides instinctive eye/rib alignment for instant target acquisition – a feature that hunters appreciate when the action is non-stop.

An overbored barrel delivers superior pattern performance and reduces recoil. The 935 further softens recoil and reduces muzzle jump with a self-regulating gas system that vents excess gasses. This system, one of the most simple and effective systems available to customers, also helps eliminate stress on critical operating components. It has few moving parts and no O-rings to spoil the action.

Safety and safe firearms handling is everyone's responsibility.

Founded in 1919, O.F. Mossberg & Sons, Inc. is the oldest family-owned firearms manufacturer in America, and is the largest pump-action shotgun manufacturer in the world. Leading the way with over 100 design and utility patents to its credit, and standing as the first ISO 9001 certified long-gun manufacturer, Mossberg is considered to be one of the most innovative firearms manufacturers in U.S. history.

For complete details on the Mossberg® 935 Magnum™ and the complete line of commercial, special-purpose, law enforcement and military shotguns, rifles and accessories, please call your local Mossberg dealer, or contact us at:
