### **535 ATST™ (All-Terrain Shotgun) THE PERFECT PUMP-ACTION SHOTGUN**

North Haven, CT (January, 2006) – From vehicles to boots to shotguns, hunters like their gear built with all-terrain toughness. This is exactly why sportsmen will love the Mossberg® 535 ATST™ Pump-Action Shotgun. A perfect blend of no-nonsense performance and innovation from the world's largest pump-action shotgun manufacturer, this is the ultimate all-around pump gun, ideally suited for whatever terrain you encounter.

The 535 ATST™ sports the same pedigree as the legendary 500® Pump-Actions – proving to be rugged, reliable, and loaded with standard features usually found on shotguns costing far more. What's new is that the 535 offers that one extra option for those situations that demand 3-1/2" stopping power. Hunters can carry the 535 ATST™ into the field for upland birds, into the blind for waterfowl and deep into the woods for turkey and deer. To complete the 535 ATST™ product line, Mossberg is offering several combos for the multi-season hunter. The best feature, however, may be its price – which is far less than similarly outfitted 3-1/2" pump-action's found anywhere.
