RESERVE SERIES™ OVER-AND-UNDER SHOTGUNS... FINE DOUBLES FOR YOUR DOLLAR

North Haven, CT (January, 2006) – The Reserve Series™ was conceived to fill the void recognized in the field and at sport shooting venues around the world – that of an affordable over-and-under. These double-guns share the same classic lines, craftsmanship, and most importantly, the reliability associated with so-called “high-end” over-and-unders.

At the heart of every Reserve Series™ over-an-under is an underlock design box-lock action for superior strength and low profile. The barrels are located lower in the receiver and in closer alignment to the shooter’s eyes and hands, so when you shoulder your gun, you’ll almost instinctively be right on target! Also designed to keep you on target, its chrome-plated bores strike the perfect balance with their sleek, streamline design, topped with a wide, ventilated rib to put your eye right on the flushing pheasant or streaking target.

Precision machining keeps the action completely closed, keeping dirt and other unwanted debris out of the receiver, helping to reduce wear and maintenance.

-more-

Safety and safe firearms is everyone’s responsibility.

Manual extractors provide a smooth, effortless operation of the action, while serving as an environmentally friendly way of keeping spent hulls from littering the range or hunting fields.

Reserve Series™ - Key Features

- Field models available in 12, 20 and 28 gauge and .410 bore, featuring gold accented game scene engraving;
- 12 gauge sporting models feature ported barrels, wide 10mm rib, lengthened stock, and scroll engraving;
- Select black walnut stock and forearm on all models;
- Steel receiver/Dual locking lugs;
- Ambidextrous thumb-operated top-tang safety/barrel selector;
- Set of 5 interchangeable choke tubes and wrench supplied (12, 20 and 28 gauge);
- Chrome-plated chambers and bores;
- Includes free gun lock;
- One-Year limited warranty.
