702/802/817 THUMBHOLE STOCK WITH TIPDOWN FOREND... GREAT ERGONOMICS AT A GREAT PRICE

North Haven, CT (January, 2008) – Mossberg International puts the “Fun” back in “Functional” with their newly released Thumbhole Stock with Tipdown Series of rimfire rifles.

Expanding its popular line of rimfire rifles, the Thumbhole/Tipdown stock is sure to be a “must have” for the aspiring shooter. Offered in .22 LR autoloading (702 Plinkster), .22 LR bolt-action (802 Plinkster) and .17 HMR (817) models, the Thumbhole/Tipdown rimfire rifle is the perfect go anywhere kind of gun, with the built-in features normally found on rifles that cost far more. The stock provides a vertical, pistol-like grip for both hands, which anatomically and ergonomically offers the most natural positions for the human hand to assume when holding a rifle to the shoulder. This results in a more natural positioning of the hands and a comfort level more conducive to accurate shooting, be it from the prone, kneeling, sitting or off-hand positions. Whether your idea of fun is serious marksmanship practice, chasing small game or just plinking around, the Plinkster™ Thumbhole/Tipdown model fits the bill.
