**535 ATS™ (ALL-TERRAIN SHOTGUN) PUMP-ACTION**

**A PERFECT BLEND OF NO-NONSENSE AND INNOVATION FROM THE  
3-1/2" EXPERTS – THIS IS THE ULTIMATE ALL-AROUND PUMP GUN.**

It's a fact. From vehicles to boots, hunters like their gear of the all-terrain variety. This is exactly why sportsmen will love Mossberg's new pump-action shotgun, the 535 ATS™ (All-Terrain Shotgun) – durable, reliable, safe and supremely versatile.

How versatile? Well, if you had to pick just one shotgun to get you through the season, we challenge you to find a better choice than the Mossberg® 535 ATS.™ A perfect blend of no-nonsense performance and innovation from the world's largest pump shotgun manufacturer, this is the ultimate all-around pump gun.

The 535 sports the same pedigree as Mossberg's legendary 500® pump actions – rugged, reliable and loaded with standard features like no other. What's new is the 535 offers that one extra option for those turkey and goose hunting situations that demand 3-1/2" stopping power. With a simple barrel change and/or choke tube change, hunters can carry the 535 into the field for upland birds, into the blind for waterfowl and into the woods for turkey and deer.

The 535 ATS, offered in a trim, 12- gauge configuration, is built with high performance in mind: Its smooth handling design, with Mossberg's Uni-Line™ receiver, provides instinctive eye/rib alignment for instant target acquisition; Accu-Choke™ tubes accommodate lead, steel and other non-toxic loads; and the Trophy Slugster® cantilevered scope mount system allows hunters to easily change barrels without disturbing a perfectly sighted scope.

***Safety and safe firearms handling is everyone's responsibility.***

The 535's best feature, however, just may be its price, which is far less than similar 3-1/2" pump actions. Combo packages are also offered, providing our 535 and an extra barrel for essentially the same price as other competitive single gun models.

"We're all extremely proud of the new 535 ATS. For those who have always wanted a 3-1/2" shotgun, but couldn't justify the price, now there's an option," says Iver Mossberg, Chief Executive Officer of O.F. Mossberg & Sons, Inc. "This is an American-made gun, offered at a price that most every sportsman can afford."

Founded in 1919, O.F. Mossberg & Sons, Inc. is the oldest family-owned firearms manufacturer in America, and is the largest pump-action shotgun manufacturer in the world. Leading the way with over 100 design and utility patents to its credit, and standing as the first ISO 9001 certified long-gun manufacturer, Mossberg is considered to be one of the most innovative firearms manufacturers in U.S. history.

For complete details on the new Mossberg® 535 ATS™ and the complete line of commercial, special-purpose, law enforcement and military shotguns, rifles and accessories, please call your local Mossberg dealer, or contact us at:
